TOP TIPS FROM OUR DIRECTOR TO YOU, HAPPY HOLIDAYS!

The TLC Education Team practices cold cooking with their students each week as a variation to classroom activities. Before you envision your preschooler at a stove in an apron, let me explain. Cooking with your child could be a fun and educational activity. Food preparation may teach skills such as: fine motor, health, safety & nutrition, math and science concepts, sensory exploration, cooperation, how to follow detailed instruction and more!

The Learning Center will be closed on December 25th for the Winter Holidays. This may be the perfect time to teach your child to "cold cook" with you. Carrying out the activities of daily living with your family could create stronger bonds, and help manage your time. Enjoy your holidays and begin 2015 with a new perspective towards food prep with your child! Bon Appétit! -B.Jones, Early Ed. Director
