TLC is hosting a Preschool Science Expedition!

Share your creativity with your child and make a science project to send to school on Thursday, July 10th. Your project will be admired by our students and staff during our "Science Expo". The event will take place from 3:00pm - 4:30pm and will include an admirable ice sculpture with a not so giant dinosaur inside. Our goal will be to see how long it takes for a big block of ice -encompassing a frozen dinosaur- to melt? Come let’s find out together!
