

# April

Volume 5, Issue 8  
The Learning Center

April 1, 2014

Spring is here! "April Showers Bring May Flowers..."

During the month of April, our students will SPRING into activity with themes that allow us to have creative fun!

The title **RAINBOW** is one of the first units of study that your child will explore. Our students will learn that rainbows often form when sunlight and rain combine in a very specific way. The beams of sunlight separate into the beautiful colors we see in the rainbow as they enter a raindrop.

During the week of **April 14th—17th**, we invite all students to bring umbrellas to school so we can recreate a rainy day using water sprinklers. This is sure to be an exciting event for all involved!

**Earth Day is April 22, 2014.** Our Education Team will celebrate this day while teaching their students to recycle items used around campus. Join us as we walk the playgrounds, rake leaves and release ladybugs to help save our plants by getting rid of the bugs that destroy them.

## Travel Enrichment at TLC!

We are happy to announce that our school will include travel camp for students who are old enough to explore the city under the supervision of our staff. Travel Camp begins Monday, June 2nd! Additional information will be provided in the near future!

## Baby Animals

Join us as we continue to celebrate spring by welcoming baby animals to our campus on April 29th. We will have pictures of children feeding the animals and cuddling them during their brief stay.

**April 30th is Grandparents Visit Day @ TLC!**

## THE HOME-SCHOOL CONNECTION:

Please continue to send in Box Tops for Education. Our collection began on 2/14/14 and will continue through next month when we will deliver them to JC Mitchell Elementary School. **\*April 15th & 16th are Rain Simulation Days!**
